Overview of Salesforce Training in Faridabad

This intensive Salesforce training at Rayon Academy equips students with specialized skills in the world's leading CRM platform. You will master the fundamentals of Salesforce Administration, including user management, security protocols, and process automation using Flow Builder. The curriculum progresses into advanced development where you will learn Apex programming, SOQL, Visualforce, and the modern Lightning Web Components (LWC) framework for building responsive enterprise applications.

Beyond basic configuration, the course focuses on real-world integration techniques and data migration strategies essential for Indian business environments. By completing this program, you will be prepared for official Salesforce certifications such as Platform App Builder and Administrator. Our hands-on approach ensures you can customize complex business logic, automate intricate workflows, and manage large-scale CRM deployments effectively in professional settings.

Testimonials

Ira Tiwari — Salesforce
The course curriculum is highly industry-aligned, especially the deep dive into Governor Limits and sharing rules. The real-world project assigned during the final month helped me understand the complexity of large-scale Salesforce deployment...

Simran Garg — Salesforce
Best place in Faridabad for Salesforce. The depth they covered in Lightning Web Components (LWC) and integration with external APIs is exactly what the industry demands right now. The mock interviews were realistic and paved my way to a...

Ayaan Sen — Salesforce
Coming from a non-tech background, I was worried about Apex coding. However, the way they broke down Triggers and SOQL queries made it very approachable. The hands-on sessions on Sales Cloud and Service Cloud modules gave me the...
